CASE STUDIES

Ben Crump

A nationally-recognized name in civil rights cases, **Ben Crump** began working with Hennessey Digital at the end of 2019. In a short amount of time, Hennessey Digital has become not just the SEO and web strategy leader for Ben Crump, but is now an integral part of their branding and marketing team.

The Hennessey Digital Creative team gave the Ben Crump website a fresh look and feel that truly represents his brand as a powerhouse in civil rights and high-profile cases, garnering national media attention. The Ben Crump website was audited, reengineered, and migrated onto a custom, responsive WordPress site. We fully rebuilt his entire website while fixing technical blockers and applying best-practice SEO.

We developed a content strategy with advanced on-page strategies, internal linking, and page layout techniques. The client immediately saw the value of traffic coming to the site and accelerated their content to 16x their initial investment, and the site now ranks at 1,000% over what it did before working with Hennessey Digital.

CASE STUDIES

Bogin, Munns & Munns

Before Florida-based Bogin, Munns & Munns started its engagement with Hennessey Digital in early 2020, their website had been updated periodically but was built in such a way that Google didn't even recognize it.

Although it had been moved to a WordPress platform, it was done by agencies that weren't in the legal marketing space and did not recognize how competitive the industry is, and the firm was showing up on pages 3 and 4 of search results. In July of 2020, Hennessey Digital completed a rebuild of the Bogin, Munns & Munns website to overhaul the site structure and improve site navigation. Hennessey Digital continued publishing quality content and built a new template for the firm's commercial practice areas, and the value of the site's organic search traffic continued to rise. Bogin, Munns & Munns now shows up on page 1 of search results for many high-value keywords and ranks in the top 3 positions for some of their most valuable keywords.

CASE STUDIES

CCK Law

Chisholm Chisholm & Kilpatrick LTD (CCK Law) has been a Hennessey Digital client for over three years. Before working with Hennessey Digital, they only ranked for a few keywords. Since working together, CCK Law has gone from ranking for only 916 keywords to ranking for over 36,000 keywords!

CCK Law is a premier firm handling Veteran's law, ERISA and disability claims, and Bequest Management. Hennessey Digital served a key role in the development of their new site, conducting a full technical audit, implementing best-practice SEO, and correcting on-page SEO throughout.

Hennessey Digital has enjoyed a lasting relationship with CCK Law, has been an important part of CCK's team, and helped CCK take digital engagement with potential clients and clients to the next level.
